BIO

I began my art career in Austin, Texas where I became a well-known poster artist. My work appears in a number of poster retrospectives from that era, including the book, *The Art of Rock* (1987, Abbeville Press). During my time in Austin, I studied photography under the legendary street photographer, Gerry Winogrand. Observed up-close how Winogrand worked and absorbing his philosophy of photography has greatly influenced my current work.
